

# Kroatien 2014

Vi kører i dag til Postojna-hulen,  
som er en underjordisk drypstenshule.  
Desværre blev mine billeder mislykket derfra.  
Derfra kørte vi til vinsmagning,  
hvor jeg købte en kirsebærvin.  
Det var en stor glæde at servere den til  
risalamande juleaften. Flasken havde facon efter  
Sloveniens landegrænse.
